- **Onsite Training**
- **Documentation & Information Management**

*Implementing and Managing a Workplace Defibrillation Program just got a lot **Easier...***

CARDIAC SCIENCE AED PROGRAM MANAGEMENT SUITE

Cardiac Science is a leading manufacturer of AEDs and an innovative provider of creating “heart safe” workplace defibrillation programs. Both large and small companies nationwide have already discovered the benefits of partnering with Cardiac Science to develop a comprehensive AED program to protect their valued employees from sudden cardiac arrest. A vital component of every AED program is proper training, medical direction, and program management.

Relying on the specialty resources of Compliant, the nation’s leading outsource provider of emergency response programs, Cardiac Science offers a turnkey AED program that contains all the components necessary to implement a workplace defibrillation program while providing compliance with all legal requirements—without creating a heavy administrative burden on your staff.

CARDIAC SCIENCE IMPLEMENTS AND MANAGES YOUR AED PROGRAM

Some companies offer to coordinate or facilitate your AED program, or you decide to do it yourself – either way you do all the work and take all the risk. Cardiac Science provides you with a completely outsourced AED program.

Centralized project management: From initial implementation through post-event support.

Consistent policy and regulation-driven implementation: Ensures that a single, legally-compliant standard of care is available to ALL of your employees.

Onsite delivery of training: Uses Cardiac Science educators to ensure that your team is always ready to respond.

Instant access to your program records: Includes student rosters, course training history, and AED location ALL available through the internet.

Peace of mind: Working with the experienced experts—Cardiac Science and Compliant, guarantee a world-class workplace defibrillation program.

CARDIAC SCIENCE

*The Cardiac Science AED Program Management Suite
contains everything needed to get your defibrillation program
up and running...and keep it that way.*

MEDICAL DIRECTION

- Written prescription to receive the AED
- Protocols for responding to a medical emergency
- Medical Director to oversee AED program protocols as required by each individual state
- Assistance with preparation of state(s) registration
- 24-hour toll-free telephone access to non-critical medical consultation
- Post-event data review and submission

ONSITE TRAINING

- Conducted by a Cardiac Science educator at location of your choice
- One 4-hour session with up to 10 people per location
- Classes consist of:
 - **CPR Training**
 - **AED Training**

DOCUMENTATION & INFORMATION MANAGEMENT SOFTWARE

- Accessible 24/7 through your web browser
- View student and course training history
- Track and display AED equipment by facility location
- Track and display serial numbers of AED equipment
